

## R-Water Giving Facilities an Edge Against Coronavirus

**April 7, 2020** - As facilities around the country focus intensively on infection control in light of the COVID-19 pandemic, Link-age partner [R-Water](#) is providing a green cleaning system featuring non-toxic, hypoallergenic solutions that are effective against the coronavirus and other pathogens in under one minute.

R-Water has recently been adopted by the City of Austin, as well as a growing number of senior care facilities. The company was featured in a [recent news story](#) regarding the product's effectiveness in the era of COVID-19.

To learn more about R-Water products, talk to your Link-age sales partner or email [admin@linkageconnect.com](mailto:admin@linkageconnect.com).

# FACILITIES ARM THEMSELVES WITH TEXAS BUILT CLEANING SYSTEM IN THE FIGHT AGAINST CORONAVIRUS

**R-Water offers a cleaning system to businesses wanting a germ-free space without negatively impacting the environment or human health.**

SAN ANTONIO — Keeping facilities germ-free can be tough for businesses and government leaders. A Texas-made cleaning system is growing in popularity in the fight against coronavirus...

## HIGHLIGHTS

- *The Franklin Properties started using the R-water cleaning system four years ago to combat the flu virus and other germs posing risks to their residents in both good or compromised health...*
- *...TK60 spray is listed as a healthcare-grade disinfectant that is effective with one minute of contact time. For comparison, other products used to clean in a commercial setting can take 10 minutes to kill germs.*
